

# HOW DRONE CLEANING WORKS

Complies with all FAA regulations for drone operations.

Cleans up to 20 stories or 200 feet.

Perfect for cleaning areas that cannot be easily accessed by lifts.

Audible noise equivalent to a household vacuum

Cleans 300+ sqft per min.

Not impacted by strong wind gusts.

Not capable of recording or taking photos.

Does not trample or damage plants and landscaping.

Safety zone closed off to the public. Monitored by ground crew.

Equipment trailer equipped with filtration system, pumps, and cleaning solution.

People love watching cleaning drones. They are a proven client satisfaction and marketing tool.
